URBAN RENEWAL PROGRAMS

Sections:

- 12.28.010** Creation and powers.
- 12.28.020** Declaration and findings.
- 12.28.030** Workable program for utilization of private and public resources.
- 12.28.040** Maximum rehabilitation and redevelopment by private enterprise.
- 12.28.050** Personal interest of public officials or employees in project or property.

Section 12.28.010 Creation and powers.

Pursuant to a vote of the people of the city, there is hereby created in the city an urban renewal authority with the powers set out herein and as set out in Title 11, Oklahoma Statutes 38-101 et seq. "Urban Renewal". Such authority shall be called the Sand Springs Development Authority. (Prior code § 12-501)

Section 12.28.020 Declaration and findings.

A. It is hereby found and declared that there exists in the city blighted areas as herein defined which constitute a serious and growing menace, injurious and inimical to the public health, safety, morals and welfare of the residents of the city, that the existence of such areas contributes an economic and social liability imposing onerous burdens which decrease the tax base and reduce tax revenues, substantially impairs or arrests sound urban growth, retards sound economic development, aggravates traffic problems and substantially impairs or arrests the elimination of traffic hazards and the improvement of traffic facilities; and that the prevention and elimination of blight is a matter of city policy and city concern; that the city shall not continue to be endangered by areas which are focal centers of disease, promote juvenile delinquency, and consume an excessive proportion of its revenue because of extra services required for police, fire, accident, hospitalization and other forms of public protection, services and facilities; that by such prevention and elimination, property values will be stabilized and tax burdens more equitably distributed, and the financial and capital resources of the city will be strengthened; that this menace can best be remedied by cooperative participation of private enterprise, the city and public agencies.

B. It is further found and declared that certain blighted areas, or portions thereof, may require acquisition, clearance, and disposition subject to use restrictions, as provided in this chapter, since the prevailing conditions of decay may make impracticable the reclamation of the area by conservation or rehabilitation; that the conditions and evils hereinbefore enumerated may be eliminated, remedied or prevented; that the salvable blighted areas can be conserved and rehabilitated through appropriate public action as herein authorized, and the cooperation and voluntary action of the owners and tenants of the property in such area.

C. It is further found and declared that the powers conferred by this chapter are for public uses and purposes for which public money may be expended and the power of eminent domain and police power exercised; and it is hereby declared that it is a matter of legislative determination that the provisions of this chapter are enacted in the public interest. (Prior code § 12-502)

Section 12.28.030 Workable program for utilization of private and public resources.

The city, for the purpose of this chapter, shall formulate for its area of operation, a workable program for utilizing appropriate private and public resources to eliminate and prevent the development or spread of blight, to encourage needed rehabilitation, to provide for the redevelopment of blighted areas, or to undertake any of these activities or other feasible public activities as may be suitably employed to achieve the objectives of the workable program. The workable program may include, without limitation, provision for: the prevention of the spread of blight into areas of the city which are free from blight through diligent enforcement of housing, zoning and occupancy controls and standards; the rehabilitation or conservation of blighted areas or portions thereof by replanning, removing congestion, providing parks, playgrounds and other public improvements, by encouraging voluntary rehabilitation and by compelling the repair and rehabilitation of deteriorated or deteriorating structures; and the clearance and redevelopment of blighted areas or portions thereof. (Prior code § 12-503)

Section 12.28.040 Maximum rehabilitation and redevelopment by private enterprise.

The urban renewal authority and the city to the greatest extent, determined to be feasible in carrying out the provisions of this chapter, shall afford maximum opportunity, consistent with the sound needs of the city as a whole, to the rehabilitation or redevelopment of the urban renewal area by private enterprise. The urban renewal authority and the city shall give consideration to this objective in exercising their powers under this chapter, including the formulation of a workable program, the approval of urban renewal plans which shall be consistent with the general plan of the city, the exercise of its zoning powers, the enforcement of other laws, codes, and regulations relating to the use of land and the use and occupancy of buildings and improvements, the disposition of any property acquired, and the provisions of necessary public improvements. (Prior code § 12-504)

Section 12.28.050 Personal interest of public officials or employees in project or property.

No public official or employee of the city or board or commission thereof, and no commissioner or employee of an urban renewal authority which has been vested by the city with urban renewal project powers under this chapter, shall voluntarily acquire any personal interest, direct or indirect, in any urban renewal project, or in any property included or planned to be included in any urban renewal project of the city or in any contract or proposed contract in connection with such urban renewal project. Where such acquisition is not voluntary, the interest acquired shall be immediately disclosed in writing to the council of the city. If such official, commissioner or employee presently

owns or controls, or owned or controlled within the preceding two years, any interest, direct or indirect, in any property which he or she knows is included or planned to be included in an urban renewal project, he or she shall immediately disclose this fact in writing to the council of the city, and any such officials, commissioner or employee shall not participate in any action by the city or board or commission thereof, or urban renewal authority affecting such property. The disclosure required to be made by this chapter to the council of the city shall concurrently be made to the urban renewal authority which has been vested with urban renewal project powers by the city pursuant to the provisions of this chapter. No commissioner or other officer of any urban renewal authority, board or commission exercising the powers pursuant to this chapter shall hold any other public office under the city other than his or her commissionership or office with respect to such urban renewal authority.
